

THE INEVITABLE MARCH OF TIME

Ageing is a natural process, and over time, the skin begins to show the effects. Laxity develops, fine lines around the eyes evolve into crow's feet, wrinkles deepen into creases, and once-defined jawlines soften into jowls. Neck contours lose their firmness, revealing bands and folds. Factors such as genetics, sun exposure, lifestyle and gravity all play a role in shaping the ageing face.

Embrace a transformation like never before with UltraClear® Laser-Coring™, a revolutionary solution reshaping the face of ageing. Tailored for maturing women and men, regardless of skin type or lifestyle.

WHAT IS LASER-CORING?

Laser-Coring™ offers a breakthrough solution if you're looking to reverse the signs of ageing without surgery. Full face and neck treatments can be carried out safely, with no risk of causing damage. With its remarkable balance of results and recovery time, you can achieve exceptional rejuvenation with minimal interruption to your daily routine.

START TREATING THESE TODAY:

- Sun Damage
- Fine Lines & Wrinkles
- Scars & Acne Scars
- Removal of Excess Skin
- Deep Collagen Remodeling¹

¹Through a presumed mechanism of action of collagen remodeling

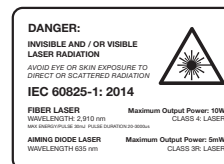

“

Eight weeks after my Laser-Coring™ treatment, I am absolutely thrilled with the results! My skin has transformed remarkably—it's tighter, smoother, and the wrinkles that once made me self-conscious have visibly diminished. I feel rejuvenated and more confident in my skin than ever before. What amazed me the most was the quick recovery time—just five days post-treatment, I was able to apply makeup and resume my daily activities without any hassle.”

Laser-Coring™

The Ultimate Innovation
For Total Skin Rejuvenation

HOW IT WORKS

UltraClear® Laser-Coring™ delivers rapid laser pulses to create micro-channels in the skin, triggering deep collagen renewal. Thanks to its advanced, precision-controlled energy delivery, many patients experience a shorter healing time and visible improvement after just one treatment.

Over the following weeks and months, you will continue to see the benefits of Laser-Coring™ as your skin regenerates and strengthens. Best of all, Laser-Coring™ can be seamlessly combined with your UltraClear resurfacing treatments to target multiple signs of ageing and enhance your overall rejuvenation results.

No Surgery. No Sedation. No Needles.

Contact us today to see if UltraClear® Laser-Coring™ is right for you.

FREQUENTLY ASKED QUESTIONS

WHAT CAN I EXPECT ON TREATMENT DAY?

On the day of treatment, photographs will be taken and a thin coat of topical numbing cream is applied to the treatment area. Typical UltraClear® Laser-Coring™ treatments are fast, 30-45 minutes. You may experience slight discomfort during the laser pulse delivery. Following treatment, you may experience a sunburn sensation, mild pinpoint bleeding, mild swelling, and tenderness.

HOW MUCH DOWNTIME CAN I EXPECT?

Downtime varies depending on your skin and the intensity of the treatment. We'll always be clear about what to expect and guide you through the healing process, so you can plan accordingly.

HOW MANY TREATMENTS WILL I NEED?

Patients have seen noticeable improvement after a single treatment with UltraClear® Laser-Coring™. Some have opted for additional treatments depending on their treatment goals. Results are long-lasting.
